

# Schaller S-Locks

*Protect Your Love*

In 1981, Schaller developed and got the patent for a totally new category of product, which revolutionized the connection between guitar and strap.

With its unique design and functionality, Schaller has been setting the standard in strap locks for decades.

*We protect your beloved instruments.*

In 2018, Schaller will pave the way for the next generation of revolutionary strap locks.

Schaller proudly presents:

Schaller **S-Locks**,  
**S** for save, **S** for silent and **S** for Schaller  
strap locks!

These new revolutionary S-Locks are silent. They feature one-piece hardened steel strap buttons, aesthetic design, perfect handling, an elegant Lock-Wheel and all former hiccups have been tackled!

**3 pieces = 1 S-Lock - perfect!**

## Strap button

Unique solid one-piece strap button in hardened steel with self-tapping wood thread. Simply screw it on with an Allen key (size 3 mm).

- ◆ 4 mm/ 5/32" screw with self-tapping wood thread. Fits all existing strap buttons incl. Gibson for perfect replacement without adjustments on existing holes and screws,

- ◆ hardened steel and more than double thickness of the strap button guarantees maximum security against breakage,
- ◆ includes high-grade felt washers for ultimate protection of guitar's finish.

## Lock

- ◆ extended thread length for holding straps of up to 6 mm thickness,
- ◆ new designed slanted locking bolt in stainless steel for permanent precision, reliable performance and wear-free finish,
- ◆ new designed pull-up ball for easy-grip lock and release.

## Lock-Wheel

New Lock-Wheel with unique 3-Step security function:

1. Screw our lock wheel with patented self-locking thread tool-free by hand, you already protect your guitar sufficiently (the round shaping must be facing the pull-up ball!).
2. Use a 2 mm or 5/64" Allen key or screwdriver to tighten it for maximum security.
3. Use our micro cone-top screw to attach it permanently. You will never lose your wheel again!

## Finally put all parts together and just listen carefully...

*Give it a shake, give it a roll and prepare to be amazed:*

**It is silent!**

New silent feature for noiseless performance while moving and playing your instruments. Schaller - the Original Innovators!

All S-Locks come in an attractive **re-usable crystal box**.

### Two more things ...

1. S-Locks are fully compatible with all existing Schaller Security Locks!
2. **Only one strap and one pair of S-Locks, ...for all your guitars.** Enjoy all the benefits of our S-Locks using one single strap. Simply use our new strap buttons replacement kits to new S-Locks for all your instruments!
